WACA/WSDOT Meeting Minutes

For Wednesday, December 4, 2024

New Business topics:

- **WSDOT is proposing to change the frequency of WACA meetings to twice a year (March and September) and making the meetings hybrid. The idea is to have these meetings at the State Materials Lab.**
Recording Time Stamp: 0:00 to 3:51
Notes:
 - *Proposal was accepted and we will now have WACA meetings 2 times a year. One in March and one in September. These meetings will be hybrid and in person attendees will need to come to the State Materials Lab.*
- **Cement / CAPS Program Update:** Katie Dafoe / Steve Davis update.
Recording Time Stamp: 3:51 to 5:04
Notes:
 - *All samples are in*
 - *Two missing certs needed.*
- **E-Ticketing, E-Construction and Industry Guidance on using RCA in Construction:** Wendy Stroschein, update.
Recording Time Stamp: 5:04 to 8:21
Notes:
 - *Introduced Ryan Zakerski who is the new WSDOT E-ticketing support individual replacing Cecilia.*
 - *E-ticketing break out session with concrete suppliers are on the 3rd Thursday of each month at 2:00 pm.*
- **FHWA Low Carbon Construction Materials (LCTM) Grant and Climate Challenge Update:** Update from Mohamed Nimeri.
Recording Time Stamp: 8:21 to 25:15
Notes:
 - *Presented a PowerPoint for WSDOT Low Carbon Transportation Materials (will be emailed).*
- **RCA Tier 4 Update:** Donny Henderson & Garrett Webster.
Recording Time Stamp: 25:15 to 25:40
Notes:
 - *The GSP is with management and under review. This will be added to the next round of GSP updates.*
- **GSP for Concrete:** Donny Henderson
Recording Time Stamp: 25:40 to 28:15
Notes:
 - *Meeting set up with WSDOT and Industry on December 19th at 11:00 am.*
- **Synthetic Fiber Reinforced Bridge Deck Concrete Update:** Anthony Mizumori
Recording Time Stamp: 28:15 to 30:11
Notes:
 - *The results are inconclusive because there was very little cracking in either deck (with or without fiber).*

WACA/WSDOT Meeting Minutes

For Wednesday, December 4, 2024

- **Comments/Questions:**

Recording Time Stamp: 30:11 to 35:44

Notes:

- *T113 Degradation testing can be observed at the State Materials Lab. Please reach out to the Structural Materials Section to set up a date and time.*
- *Meeting request with WSDOT to discuss questions from Kim Schoefield regarding Recycled materials in some products and why do Contractors not have the ability to re-test aggregate properties (HMA and Other Aggregates)?*
- *Question from Kentin Hill regarding Riprap quarry spall approval timeframe. Explained that due to variability in sources that the approval timeframe will remain at one year.*

No Update:

- **WSDOT T113 Degradation Test Method update and discussion.**
- **Discussion on Global Warming Potentials (GWPs) for Portland Cement:** Update
- **Naturally Occurring Asbestos in Aggregates:** Update
- **Use of RCA in Concrete Greater than 3000 psi.** Update
- **RCA on WSDOT projects.**

Old Business: The topics listed below will be removed from future meeting agendas unless there needs to be additional discussion or there is an update regarding these topics.

- **Standard Specifications 9-23.12 Natural Pozzolan:** Donny Henderson update.
